The fragrance of the Atlantis collection, a vibrant and sophisticated harmony, combines citrus freshness, floral elegance, and musky depth. Its top notes, with an explosion of lemon, grapefruit, and peach, offer a sparkling and sunny opening. The heart and base notes add a touch of delicacy and refinement.

Artemide

Nature touch

The Artemide collection is dedicated to those seeking a sensory experience in harmony with nature. Mirage

Oriental dream

The Mirage collection interprets the warmth of amber and the brilliance of citrus in an elegant and magnetic composition. The fragrance opens with a sparkling explosion of bergamot, lime, and orange, enriched by a velvety hint of coconut. At its heart, white flowers and violet meet in a radiant and enveloping accord. The amber base leaves an intense and persistent trail that envelops the senses in a golden embrace.

Slight variations in appearance may occur due to the presence of essential oils, fragrances and other naturally derived ingredients in the formula. These do not indicate product alteration or deterioration and do not affect its performance in any way.

Beauty Escape fragrances: memorable olfactory notes

Hyaluronic acid

It’s a high-molecular-weight molecule present in the skin’s connective tissue. Thanks to its ability to retain water, it maintains the skin’s moisture balance and has marked hydrating, repairing, and tissue-regenerating properties.

Glycerine

A small, plant-derived molecule that retains the skin’s moisture, delivering deep, long-lasting hydration and an immediately radiant appearance.

Premium ingredients for a wellness experience

The Beauty Escape amenities line has been designed to give you a wellness experience.
All products feature formulations rich in active ingredients that work in synergy to offer the skin intense hydration, soft texture, and radiance.

Panthenol

Known as Vitamin B5, it has several important properties for the skin, including hydrating, soothing, and protective properties against irritations.

Vitamin E

It's an active ingredient known for its protection against oxidative damage; it improves hydration, skin elasticity, and accelerates cell renewal processes.

Design and functionality: elegance at the service of hospitality

The Beauty Escape line combines functional design with refined aesthetics.

The sinuous and refined bottle has been designed not only to be functional, but also to enrich the bathroom environment of hotel rooms with an elegant and harmonious touch.

This bottle can be used in two ways: resting on the shelf, or fixed to the wall with an elegant bracket. This solution guarantees the inviolability of the bottle, an extra level of security for the hotelier.

Main features

Sustainability: the refillable bottles reduce single-use plastic.

Safety: the bottles secured to the brackets guarantee total inviolability and prevent any possible contamination, for maximum safety.

Ease of use: the practical opening system of the brackets allows quick bottle replacement.
